

EZCHANGE DRINKING WATER FILTER

- **2-Stage filtration**
- **0.5 μm nominal filtration**
- **Specialty blend carbon blocks**
- **High flow rate at 1GPM**
- **Connected to existing water faucet**
- **Easy, no mess installation and filter change**

Housing and fittings tested to NSF 42
System pending testing NFS 42 and
53 certifications

Made in Canada

Carbon Cartridge Made in USA

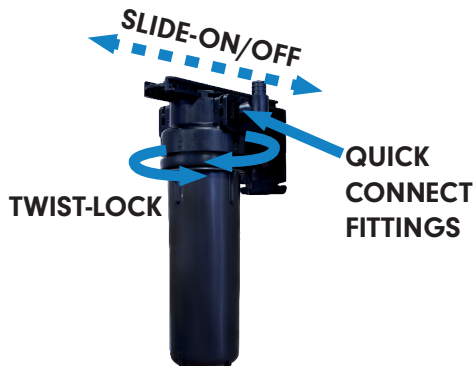

SYSTEMS FEATURES

PATENTED QUICK LOCK DESIGN

- Interconnected distributor and filter housing that twist-locks in place
- Modular components attached with quick connect fittings
- Custom designed brackets allows for quick slide-on installation
- Easily expand the system from **1-stage, 2-stage, to 3-stage**

USER FRIENDLY DESIGN

- No countertop drilling or secondary faucet required: our high flow system is connected to the existing water faucet
- No mess filter change: built-in water bypass activated when the filter housing is removed. The customer twists and pull out the cartridge mess free.

2 STAGE FILTRATION

STAGE 1: 0.5 MICRON CHLORINE-VOC FILTER

- Reduces Chlorine, particulates, VOCs

STAGE 2: 0.5 MICRON LEAD FILTER

- Reduces Lead, particulates

Available upon request:

- Chloramine Filter: Reduces Chloramine, particulates
- Arsenic Lead Filter: Reduces Arsenic, Lead, particulates
- Descaler Filter: Reduces Scale

Expected Performance NSF/ANSI 42 and 53

SPECIFICATIONS

Model: FG-EZC-UC2S

Dimensions (L x W x H): "11.5 x4.25"x9.5"

Weight: 15 lbs.

Operating Pressure Range (PSI): 60

Operating Temperature ($^{\circ}\text{F}$): 40-90

Flow Rate (GPM): 1 gals./min.

Flow Capacity (Gals.): 1,500
